

Git Onboarding Submission

GitHub username: eperez05

Git config:

```
user.name=Emily Perez
user.email=emilyp081905@gmail.com
github.user=eperez05
core.autocrlf=input
core.editor=pico -w
```

SSH test:

```
Hi Eperez05! You've successfully authenticated, but GitHub does not provide shell access.
```

First commit:

```
[main (root-commit) c347698] Initial repository setup
3 files changed, 3 insertions(+)
create mode 100644 .DS_Store
create mode 100644 .gitignore
create mode 100644 README.md
```

Reflection:

A part I feel confident in is doing the SSH connection. After that, adding the repositories and the files was the most confusing to me.

Learn how we count contributions

Less More

This is your **contribution graph**. Your first square is for joining GitHub and you'll earn more as you make [additional contributions](#). More contributions means a higher contrast square color for that day. Over time, your chart might start looking [something like this](#).

We have a quick guide that will show you how to create your first repository and earn more green squares!
